

Gulf Breeze, FL Mitigation Initiatives  
as of August 2007

Gulf Breeze Rank	Project Name	Project Description	Total Cost	Amount filed for grant	Status	LMS Points	GB's Portion	Funding Status
1	Stormwater Project	Enhance the storm water conveyance system in several severely impacted areas to eliminate/reduce flooding of homes, property and streets. These areas experience serious flooding after heavy rain events.	\$ 1,500,000	\$ 1,500,000	filed with HMGP	28	\$ 375,000	approved
2	South Santa Rosa Recreation Center Exterior Strengthening	This facility is designated as a staging and coordination location after an event and needs hardening and internal enhancements to ensure it can optimally function.	\$ 400,000	\$ 400,000	filed with HMGP	38	\$ 100,000	denied
3	City of GB Wastewater Sewer line extension	Extension of sewer lines to three areas of Gulf Breeze extensively impacted by flooding that causes environmental and public health issues after heavy rain events. Areas include Eufaula St., McLane and Beach Rds and Highpoint Dr., all near Pensacola Bay.	\$ 500,000	\$ 499,605	filed with CDBG, approved, work begun	36	\$ -	work in progress
4	Emergency Operations Center	Building of an emergency operations center for the Town of Gulf Breeze.	\$ 4,500,000	\$ -	pending funding source	34	\$ -	
5	Pressure Sensitive Water Cutoff Valves	Purchase and implementation of pressure sensitive water cutoff valves to decrease contamination of water systems during flooding and hurricane events.	\$ 150,000	\$ -	pending funding source	34	\$ -	
6	SSRUS/Fuel Tanks	Gulf Breeze experienced significant problems in obtaining fuel to run generators after Hurricane Ivan due to the precarious southern location between several closed highways and bridges. The addition of these fuel tanks at City Hall will provide increased fuel capacity during and after a storm event and lessen the reliance on transportation routes immediately after a storm.	\$ 45,000	\$ 45,000	filed with CDBG, approved, work begun	39	\$ -	work completed
7	Fuel Tank	Gulf Breeze experienced significant problems in obtaining fuel to run generators after Hurricane Ivan due to the precarious southern location between several closed highways and bridges. The addition of these fuel tanks at Sewer Treatment Plant will provide increased fuel capacity during and after a storm event and lessen the reliance on transportation routes immediately after a storm.	\$ 55,000	\$ 50,000	filed with CDBG, approved, work begun	38	\$ -	work completed
8	Backup Generators	Purchase of ten generators for backup of pump/life stations to ensure continuation of operations during and after a storm event.	\$ 400,000	\$ 400,000	filed with CDBG, approved, work begun	34	\$ -	work completed
9	Mobile Command Center	Purchase of a mobile command center for the town of Gulf Breeze to facilitate command and control during and after a major storm event.	\$ 350,000			35		
10	Mast Arms	A recommendation of the Long-Term Recovery project, this will improve safety and efficient transportation after a large scale event.	\$ 300,000	\$ 200,000	pending funding source	30		
11	Police Impound Lot Cover	Purchase of an impound cover to protect criminal evidence during major storm events.	\$ 125,000			21
